MATERIAL SAFETY DATA SHEET, PVC

Section 1  Product and Company Identification
City Plastics Pty Ltd
61 East Street
BROMPTON 5007
South Australia
Phone: +61,8,8346 6500
Fax: +61,8,8346 6711
Material Identification
Product Name: PVC
Chemical Name: POLYVINYL CHLORIDE RESIN
CAS Number: 75-01-4
Product Use: Thermoplastic for fabrication.

Section 2  Composition/Information on Ingredients
Polyvinyl Chloride

Section 3  Hazards Identification
Ingestion: Not a probable route of exposure.
Skin: Molten material will cause thermal burns.
Eye: Mechanical irritation only.
Inhalation: Stock shapes are not respirable, avoid breathing dust, as fine particles can be inhaled and retained in the lungs.

Section 4  First Aid Measures
If exposed to fumes from overheating, move to fresh air. Consult a physician if symptoms persist. Wash skin with soap and plenty of water. Flush eyes with water. Consult a physician if symptoms persist.
If molten material contacts skin, cool rapidly with cold water. Do not attempt to peel material from skin. Obtain medical attention to thermal burn.
Chronic effects: Cancer hazard, this material contains vinyl chloride, which is a listed human carcinogen.
Medical conditions generally aggravated by this material: Exposure to Polyvinyl chloride may result in an asthma syndrome.
MATERIAL SAFETY DATA SHEET, PVC

Section 5 | Fire Fighting Measures
Flash ignition temperature: 260°C / 500°F
Unusual fire, explosion hazards: PVC will not continue to burn after ignition without an external fire source.
Hazardous combustion products: Burning liberates HCL gas.
Special fire fighting instructions: Fire fighters and others exposed to products of combustion should wear full protective clothing including self-contained breathing apparatus. Fire fighting equipment should be thoroughly decontaminated after use.
Extinguishing media: Water spray, CO2 or Foam extinguishing agent.

Section 6 | Accidental Release Measures
Spill or release: Spilled pellets or scrap should be removed from floor areas immediately to provide stable footing.

Section 7 | Handling and Storage
Avoid breathing dust and fumes.
Practice reasonable care and caution in handling.

Section 8 | Exposure Controls/Personal Protection
Eye: Safety glasses are recommended to prevent particulate matter from entering eyes while grinding or machining.
Skin: Protective gloves are required when handling hot polymer. Also, long sleeve cotton shirt and long pants if handling molten polymer.
Ventilation: Local exhaust at processing equipment to assure that particulate levels are kept at recommended levels.
Respirator: Recommended.

Section 9 | Physical and Chemical Properties
Appearance: Stock shape may be rod, plate or tube form.
Odour: Essentially odourless.
Melting point: This product does not exhibit a sharp melting point, but softens gradually over a wide temperature range.
Solubility in water: Insoluble
Volatile content %: 0
Specific gravity: 1.39

Section 10 | Stability and Reactivity
Stability at room temperature: Stable
Materials to avoid: Acetal at high temperature.
Conditions to avoid: Burning liberates HCL gas.
